

OUR STAGING SYSTEM

Transtage's mobile folding stage is among the quickest-to-set-up portable stages on the market; it takes less than 1 minute to set up a 2.4m x 1.8m stage complete with skirts and steps that is ready for your events. The assembly is minimal since most components, such as legs, wheels, and connection hardware, come pre-assembled. Simply wheel the stage to the desired location, unfold the deck, attach the skirts and steps, and your stage is set! Disassembly is equally straightforward; the stage easily folds back onto its wheels for convenient storage. Moreover, the stages are designed for compact storage, occupying only a 1.8m x 0.5m footprint per unit. Constructed with a full steel frame and commercial-grade black carpet, the stages not only add a sleek look to your event but are also robust and heavy-duty, ensuring years of use. If you're seeking a stage that combines the quickest setup time with minimal assembly, Transtage's Mobile Folding Stage is your choice.

SPECIFICATION

PLATFORM SIZE	2.44 x 1.83m

10 YEAR STRUCTURE WARRANTY

ROLL IN, UNFOLD; SETTING UP A STAGE FOR YOUR EVENT HAS NEVER BEEN EASIER.

Constructed with a heavy-duty steel frame protected with black coating, the Mobile Folding stage is a one-time investment that will last for over a decade. It is robust, ensuring safety at your event, and backed by our 10-year structural warranty for your peace of mind.

We stock all parts and hardware, readily available when your stage is due for refreshment, to bring back its life again.

Here's what our customers have said about Transtage

"Transtage were very easy to deal with and very helpful when the stage was delivered to our retirement village. They even showed us how to put it together. We ordered the All Terrain stage and everyone was very happy with it. The service was exceptional, and delivery was prompt. Very satisfied customers. Would recommend them."

Mary Gibbons
Living Choice Retirement Village

I am very happy to endorse the Transtage Stages which the Manly Warringah Choir uses in concert performances. They are sturdy, easy to erect and dismantle, flexible, and reasonably priced. Furthermore, I do not know of any other product which performs the same function as well as the Transtage.

Richard Griffiths
Manly Warringah Choir

Just a quick thank you for your excellent customer service. We have today erected our portable stage and our Committee is very pleased with the flexibility and quality of your product.

We look forward to purchasing more panels in the future.

Trevor Brown
