

## OUR STAGING SYSTEM

Transtage's Ultra Stage is the ultimate choice for events of all sizes. Featuring a larger deck size of 2.4m x 1.2m, this means you will save time on assembly compared to smaller-sized decks. The truss frame design, reinforced by crossing bars, makes the Ultra Stage exceptionally robust and stable, capable of supporting up to 1000kg of weight. The legs are adjustable in height or can be micro-adjusted for uneven ground, making it suitable for any event, whether indoor or outdoor, or on any surface. A range of accessories is available, including skirts, steps, guardrails, ramps, and transportation trolleys, to complete your setup. We also offer custom-made sizes and heights for your specific configurations. Engineered and manufactured specifically for professional users such as production companies, concerts, and large venues, the Ultra Stages are also user-friendly enough to be managed by schools, churches, and the needs of smaller events.

## SPECIFICATION

LOAD CAPACITY	1000kg/m <sup>2</sup>

# 10 YEAR STRUCTURE WARRANTY

*EXCEPTIONALLY STRONG AND WELL-BUILT,  
A PROFESSIONAL STAGE THAT IS NOT  
EXCLUSIVE TO PROFESSIONAL USERS.*

The Ultra Stages are not only constructed with the finest industrial-grade aluminum, but their sophisticated structure also ensures maximum sturdiness and stability. These stages come with a 10-year structural warranty, though their lifespan will significantly exceed that.

Stage tops are replaceable; we offer a 50% lifetime discount for stage top replacement, allowing you to make your stage look brand new again once it's beyond wear and tear.

Here's what our customers have said about Transtage

"Transtage were very easy to deal with and very helpful when the stage was delivered to our retirement village. They even showed us how to put it together. We ordered the All Terrain stage and everyone was very happy with it. The service was exceptional, and delivery was prompt. Very satisfied customers. Would recommend them."

**Mary Gibbons**  
Living Choice Retirement Village

I am very happy to endorse the Transtage Stages which the Manly Warringah Choir uses in concert performances. They are sturdy, easy to erect and dismantle, flexible, and reasonably priced. Furthermore, I do not know of any other product which performs the same function as well as the Transtage.

**Richard Griffiths**  
Manly Warringah Choir

Just a quick thank you for your excellent customer service. We have today erected our portable stage and our Committee is very pleased with the flexibility and quality of your product.

We look forward to purchasing more panels in the future.
